**Subject:** RE: Rosemont Mine

I don't know what CEQ has in mind. Water Division would certainly be the lead for weighing in on any water quality/tier 3 water impacts, but we might want to be at the table, too, particularly if Forest Service is there; also because Corps's intent has always been to rely on Forest Service's EIS. Water and NEPA have always worked on this project as a team. I assume "ILF" refers to "in-lieu fee", which is an approach to mitigation.

When they refer to EPA below, I assume they mean the Water Division or Office of Water? Can you tell me what ILF stands for.

Kathy,

What CEQ has heard from USACE HQ.

# Deliberative Process / Ex. 5

v/r,  
Kelly

**Subject:** Re: Rosemont Mine

Update: R9 Water Division Director Tomas Torres and Acting Assistant Water Division Director Jason Brush are scheduled to meet with Stu Townsley of the Corps' South Pacific Division (SPD) on Friday to find out what transpired in the meeting that SPD recently had with Hudbay. Apparently, Hudbay representative Patrick Cunningham contacted our RA and characterized Hudbay's meeting with SPD as having resulted in reopening the record at Hudbay's request. The Region wants to hear directly from the Corps' what the Corps' perspective is on the situation.

Kathy/Connell,

CEQ is asking if there is any recent news regarding USACE's decision regarding the 404 permit for Rosemont Mine? Has R9 had any recent contact with the Corps regarding the issue. Need any insight by COB today.

Thanks -- Kelly
